To whom it may concern,

This letter is to express our complete satisfaction by Kintel General Contractors for the renovation/addition work done on our premises.

The construction services were provided in a professional manner. The job involved a new elevator installation, storage area, office area, day care nursery and main reception.

The entire Kintel group was always accessible and constantly surpassed expectations.

It was a great experience working with Kintel and I would highly recommend them for any type of construction project.

Sincerely
